Setting up a Business in Hong Kong

Overview

The most common types of business vehicle in Hong Kong are as follows:

- A company incorporated in Hong Kong
- A branch office of a parent company
- A representative office

Business Registration

The Business Registration Ordinance requires that every business in Hong Kong register with the Business Registration Office of the Inland Revenue Department in respect of each location from which the business is conducted within one month of starting business. The registration certificate must be displayed at the place of business and is usually valid for one year. Particulars registered with the Business Registration office are available to the public and any change in particulars must be notified to the Business Registration Office within one month. Business registration serves to notify the Inland Revenue Department that a business has been established that may be subject to payment of profits tax.

Licenses and Consents

Certain businesses require specific licenses or consents from regulatory authorities, including but not limited to businesses involved in telecommunications, insurance, banking and other financial services.

Companies Incorporated in Hong Kong

Companies incorporated in Hong Kong can be public or private and can be limited by shares or by guarantee. Usually companies limited by guarantee are set up by non-profit organisations. Most public companies are listed on the Hong Kong Stock Exchange and are subject to additional regulations such as the Listing Rules and the Hong Kong Code on Takeovers and Mergers.

Private Limited Companies

A private limited company is a company which restricts the right to transfer its shares; limits the number of shareholders to 50 (excluding employees and former employees) and prohibits any invitation to the public to subscribe for any shares or debentures in the company. The liability of each shareholder is limited to the amount (if any) unpaid on the shares held by that shareholder.

Incorporation

A private limited company may be incorporated in Hong Kong by submitting the following to the Hong Kong Companies Registry:

- a certified signed copy of the Articles of Association
- an incorporation form
- the prescribed fee

A company name must not be the same as an existing company. The Registrar of Companies keeps a list which may be viewed online at the Companies Registry's Cyber Search Centre. A company may be incorporated with an English or a Chinese name or a name incorporating both English and Chinese. It is not possible to reserve a name in advance.

The Companies Registry will issue a Certificate of Incorporation certifying the name and date of incorporation of the company.

Shareholders, Directors, Company Secretary and Auditors

A private limited company in Hong Kong must have at least one shareholder, one director who is a natural person and a company secretary. A secretary, director and shareholder of a company can be the same person except that the sole director of a company cannot also be the secretary of the company. There is no prescribed minimum share capital. The company secretary must be either an individual resident in Hong Kong or another Hong Kong limited company. The company's auditors must be a Hong Kong firm of accountants. Shareholders and directors can be of any nationality or residence.

Registered Office

The registered office address of the company to which all formal and legal correspondence will be addressed must be situated in Hong Kong. The registered office address may be a different address to the company's business address.

Post Incorporation Matters

A company must keep annually audited accounts. It is advisable for auditors to be appointed as soon as possible after incorporation. After incorporation a company may open bank accounts in Hong Kong and elsewhere. The company must determine a financial year, file annual returns and hold/maintain a business registration certificate.

A Branch Office of a Parent Company

A foreign company is permitted to establish a branch office in Hong Kong. It must register the branch with the Registrar of Companies within one month of establishing a place of business in Hong Kong. A certificate of registration of a non-Hong Kong company will be issued by the Companies Registry. In addition, a branch office must apply for a business registration certificate.

Subject to being exempted from an obligation to do so, a foreign company must file an annual return confirming that there is no change to the documents and particulars already filed with the Registrar at the time of registration. The company must also file an annual balance sheet, profit and loss account, group accounts, directors' report and auditors report.

Considerations when choosing a branch vs. a subsidiary include the following:

- A subsidiary is an entity which is completely separate from its parent. The parent is not, therefore, responsible for the debts of its subsidiary.
- Profits tax is the same for local and foreign companies.
- Establishment of a subsidiary is quicker than setting up a branch.
- A Hong Kong subsidiary is not required to file its accounts on public record. A branch will need to do so unless it is exempted.
- Establishment of a branch may lead to tax advantages in the home jurisdiction such as the treatment of any losses by the Hong Kong branch.
- No capital duty is payable for setting up a branch.
- A separate audit of a branch is not required.
- Termination of a branch may be affected by notification to the Companies Registry. A subsidiary may only be terminated by way of liquidation or deregistration.

Representative Offices

A foreign company is permitted to establish a local representative office which is not required to register with the Registrar of Companies but must obtain a business registration certificate. Subject to certain exceptions, a representative office must not undergo business in Hong Kong that creates any legal obligations. A representative office is usually a liaison office.

Sole Proprietorships, General Partnerships and Limited Partnerships

A Sole Proprietorship must obtain a Business Registration Certificate. It is not a separate legal entity, therefore all debts and liabilities are the personal responsibility of the sole proprietor.

A general partnership is usually governed by a partnership agreement. A partnership is not a separate legal entity. The partners are personally liable for all debts and liabilities. A general partnership must obtain a Business Registration Certificate.

A limited partnership must be registered with the Registrar of Companies and obtain a Business Registration Certificate. A limited partnership must consist of at least one or more general partners who are responsible for the management of, and are liable for, all the debts and obligations of the partnership and one or more limited partners who are liable for the debts or obligations of the partnership only up to the amount that they contribute to the capital of the partnership. A limited partner must not take part in the management or control of the business of the limited partnership and must have no power to bind the limited partnership as its agent.

Acquiring a Business

There are two ways to purchase a business in Hong Kong. The first is to buy the shares of a company. This involves acquiring a company with all of its assets and liabilities which generally involves a due diligence exercise and appropriate warranty and indemnity protection in the sale and purchase documentation.

The second is to buy the assets of a business which may protect the purchaser from certain liabilities of the business but can be a complicated process requiring third party and other consents.

Joint Ventures

Two or more joint venture partners may agree to undertake a business together. The most common legal structure for a joint venture arrangement is to establish a private limited company where the shareholders are the joint venture partners. A shareholders agreement will regulate the business of the joint venture company and the rights and obligations of the joint venture partners.

His practice encompasses Hong Kong and the Asia Pacific region, particularly Indonesia and Singapore. Chris has been named in the Guide to the World's Leading Mergers and Acquisitions Lawyers as well as the International Who's Who of Merger and Acquisition Lawyers as one of the world's top mergers and acquisitions lawyers.

Chris has represented major clients on many significant matters including:

- Acted on behalf of PT Lippo Karawaci Tbk group of companies in a Rp 2.2 trillion equity deal in which CVC Capital Partners agreed to acquire a 15% stake in PT Siloam International Hospitals Tbk, the largest private national healthcare group in Indonesia and a listed subsidiary of PT Lippo Karawaci Tbk.
- Acted for PT Multipolar Tbk and its wholly owned subsidiary in relation to the issuance to and subscription by Anderson Investment Pte Ltd., a wholly owned subsidiary of Temasek Holdings (Private) Limited, of a USD300 million equity linked instrument which is exchangeable into a 26.1% stake in PT Matahari Putra Prima Tbk.
- Acted for Lippo China Resources, a Hong Kong listed company, in its disposal of interest in its PRC retail department store business carried out under the name "Robbinz".
- Acted for Hong Kong Chinese (formerly The HKCB Bank Holding Company Limited) in its acquisition of an 85% interest in Finibanco (Macau), S.A.R.L.
- Acted for an Indonesian based group in relation to the reorganisation of its regional telecommunication and technology interests into a single group and the listing of that group on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited.
- Acted on behalf of PT Matahari Putra Prima Tbk, one of Indonesia's largest retailers, in its divestment of a substantial part of its interest in PT Matahari Department Stores Tbk to a newly established joint venture with funds

managed by CVC Asia Pacific Limited, Matahari retaining a 20% interest in the venture.

- Acted for PT First Media Tbk, a company listed on the Indonesia Stock Exchange, in its divestment of part of its interest in PT Link Net and PT First Media Television to a private equity group.
- Acted on behalf of a consortium comprising European financial institutions and Asian investment funds regarding the acquisition of a controlling interest in a financial institution from the Indonesian Bank Restructuring Agency and its subsequent sale to a sovereign wealth fund.
- Acted as international counsel for Overseas Union Enterprise Limited ("OUE"), a company listed on the SGX, and a consortium led by OUE, in its competing general offer for all the shares in Fraser & Neave Limited for an aggregate consideration of approximately S\$13 Billion. The offer subsequently lapsed.
- Acted for Lippo Limited in its proposed arrangements with Caesars Entertainment Corporation in relation to a proposed joint venture to construct an integrated resort, hotel-casino and serviced apartments in South Korea.
- Restructuring of external debt obligations of Guangdong Enterprises, a wholly-owned conglomerate of Guangdong Provincial Government ("GPG"). The total indebtedness involved was approximately US\$5.7 billion owed by some 300 companies to about 170 banks and 4 large groups of holders of debt securities. The restructuring involved complex and protracted negotiations with the steering committees appointed by the bank creditors and the noteholders. GPG's principal contribution to the restructuring was the privatisation of the entity in Guangdong Province which supplies Hong Kong with most of its natural water. Following the formation of a new company, debt in excess of US\$2 billion was issued to amortise the rescheduled debt. The privatised entity was then injected into Guangdong Investment Limited, a company listed on the Stock Exchange of Hong Kong and controlled by GPG as part of the overall restructuring.
- Acting for Overseas Union Enterprise Limited, a company listed on the SGX, generally as international counsel in various corporate transactions.
- Acted for an Asian based conglomerate on the reorganisation of its Hong Kong interests which involved several entities listed on the Hong Kong Stock Exchange and including regulated entities.
- Acted on numerous IPO's on the Hong Kong Stock Exchange, many of which involved the reorganisation of companies within the group to be listed in anticipation of listing.
